THE BIGGER STORY

# BEFORE REDWOOD, THERE WAS DEEP

---

One of the most powerful stories Sector 7 Films is building is REDWOOD. But the world of Redwood begins long before the empire exists.

DEEP takes us back to the beginning - to Rod as a young man, before the power, before the success, and before the multibillion-dollar Black-owned company that would one day become Redwood.

How did it begin? What did it cost? What had to happen for Redwood to exist? Those answers live inside DEEP.

***THE STORY STARTS DEEP.***

CINEMATOGRAPHY

# VISUAL LANGUAGE

---

DEEP is designed to feel theatrical rather than disposable - cinematic, naturalistic and atmospheric, with motivated practical light, rich shadows, controlled contrast and images built to hold tension even when nobody is speaking.

The visual world moves between intimate homes, streets, churches, cars, woods and spaces of wealth and power. Every environment should feel lived-in while maintaining a polished feature-film scale.

***EVERYONE HAS A SURFACE. DEEP IS ABOUT  
WHAT LIES UNDERNEATH.***

SECTOR 7 FILMS

# BUILT FROM THE INSIDE OUT

ORIGINAL DRAMA SERIES

DEEP is produced by Sector 7 Films with an independent, hands-on production philosophy. The project is built around creating the story, imagery and production identity in-house rather than waiting for a traditional system to define what the series should be.

Maryland and Eastern Shore environments - homes, streets, churches, businesses and open landscapes - give the series a world that feels authentic because it is rooted in real places.

LTIES RUN DEEP.  
ETS RUN DEEPER.

**REAL STORIES. REAL PEOPLE. REAL IMPACT.**
